

GOOD LIFE OR BAD LIFE?

We are not given a Good Life or a Bad Life.

We are given LIFE!

It is up to Us to make it Good or Bad.

-Ward Foley –

Often, it is how we live that life that determines the health issues we may experience in our future. Then, rather than recognize what we have wrought on ourselves, we question “Why Me?”

Unfortunately, we learn too late and how we lived our lives up to that time has already begun to take its toll.

For many it may be our genetics that determine the health issues we eventually experience, and for others it may be the occupations in which we lived much of our lives wherein we were subject to toxic chemicals or an environment we had no idea could be hazardous to our health (The exposure to Agent Orange as one example). For others it may have been our choices of exposing ourselves to the effects of alcohol, tobacco, drugs, and the so many other forms of products that we should have known better than to imbibe.

What can we do? Bring attention to those following in their journey with life to be aware that their lifestyle, henceforth, can determine what they experience as that life continues.

Charles (Chuck) Maack - Prostate Cancer

Patient/Activist/Mentor

(A mentor should be someone who offers courtesy, professionalism, respect, wisdom, knowledge, and support to help you achieve your goals; would that I succeed)

Recipient 2008 Us TOO Intl., Inc., Prostate Education & Support Network 1st
